

As we are in the process of implementing a new learning management system, some tasks and resources have been added to the College Ultranet. Sign in at the top right of the College homepage (which you accessed this document from). Senior students are encouraged to access this site and navigate to the faculty page for the appropriate level, eg: English, Level 3.

In order to access this you will need to use your standard school network code (the first part of your email address), and a password.

If you email Miss Dwan [sdw@villa.school.nz](mailto:sdw@villa.school.nz) and request your password, this will be sent back to you. Please make sure you write your name and year level in the message.

After accessing the page for the first time, you should change your password for security.
